About The Partnership

We work with a leading **end-to-end medical practice growth solution provider**. They provide tens of thousands of medical businesses with websites, SEO, reputation management, EMR integrations, online scheduling tools, and much more.

In short, this partner helps medical practices gain patients, keep current patients happy, and streamline internal processes.

This partner was **looking to add social media services to their suite of products**. Shortly after, SocialMadeSimple began providing white-labeled social media services at scale for this partner's clients.

By integrating with the SocialMadeSimple platform, we were able to produce consistent, quality, content from day one.

Today, we are producing social media content and ads for more than **1,000 of their active clients**.

The Challenge

Our partner needed a white-labeled vendor that could deliver quality social media services for thousands of their clients. SocialMadeSimple utilizes proprietary software and a team of Customer Success Managers, Digital Ads Specialists, and Content Specialists to deliver the following:

—
Custom & general interest posts to Facebook, LinkedIn, and Twitter.

—
Paid ads that drive page growth, website traffic, and phone calls.
